## KADENA RESIDENT OFFICE

**BUILDING STRONG®**

The Kadena Resident Office was originally created to be a dedicated office for the largest two customers in the Okinawa Area Office, DoDEA and Air Force Housing. However, with a growing program, the office has transformed and currently oversees projects for Air Force Housing and AFSOC.

Located at Camp Lester, Okinawa Japan, the office administers projects throughout the island and has several project offices located on Kadena.

The Kadena Resident Office is one of four resident offices in Okinawa that is dedicated to being the executive agent for military construction in Okinawa, providing comprehensive, professional quality construction services for all U.S. forces in support of peacetime and contingency operations. Currently Kadena Resident Office administers more than ten active construction contracts with values ranging between \$3M-\$60M, included housing renovations, utility upgrades, a new consolidated AFSOC campus and a maintenance hanger/ weather shelters for the F-35.

To accomplish its primary mission, the office works closely with its partners and customers from the Air Force and Marine Corps.
