YOKOTA RESIDENT OFFICE

BUILDING STRONG®

INTRODUCTION: The Yokota Resident Office is one of the seven Resident Offices in the Japan Engineer District. Our mission is to deliver high quality construction projects to our Air Force partners and their families.

LOCATION INFORMATION: The Yokota Resident Office is located on Yokota Air Base, which is positioned approximately 20 miles west from downtown Tokyo in the city of Fussa. The base is the headquarters of the 374th Airlift Wing which is currently used for airlift missions throughout East Asia. Yokota Air Base is also home to U.S. Forces, Japan (USFJ) and the Fifth Air Force commands.

TYPE OF WORK PERFORMED: The Yokota Resident Office has contributed greatly to the Yokota Air Base's infrastructure. The resident office has been responsible for the delivery of numerous military construction and host nation projects for the Yokota Air Base partners and stakeholders. We recently completed the 21st Century designed Yokota High School, the C130J Flight Simulator and the renovation of the Commissary. The staff is currently managing the military housing renovation project on the north side of Yokota Air Base and the Air Force Special Operations Command (AFSOC) Airfield Apron and Site Infrastructure project. Under the host nation program, we recently delivered the Administrative Facility for the Security Forces and Defense Finance and Accounting Service. We are currently managing various infrastructure projects, including the new complex roadway at the Tokorowaza Transmitter Site.

STAKEHOLDERS: The Resident Office's primary stakeholders include all Squadrons of the 374th Airlift Wing, AFSOC, Air Force Civil Engineer Center (AFCEC), Department of Defense Education Activity (DODEA), North Kanto Defense Bureau, and the families living at Yokota Air Base. We also partner with members of different communities, including the Cities of Tokorozawa, Mizuho, and Kyotango.
